

Accreditation summary template

National summary statement about the accreditation process

The accreditation process involves a rigorous assessment of an initial teacher education (ITE) program against a set of nationally agreed standards. Accreditation standards and procedures are designed to ensure that all graduates of ITE meet the Australian Professional Standards for Teachers at the Graduate career stage. This ensures the program is of high quality and prepares pre-service teachers for the teaching profession. The process also includes an assessment of a provider's quality assurance and continuous improvement mechanisms, as well as ensuring that the provider has a nationally endorsed teaching performance assessment which all graduates must successfully complete.

More information on the accreditation process may be found at: <https://www.aitssl.edu.au/deliver-ite-programs/standards-and-procedures>.

Jurisdiction	Teachers Registration Board of SA
Provider	Flinders University
Program title	Bachelor of Education (Secondary) / Bachelor of Science
Program type	Undergraduate
Program duration in equivalent full-time student load (EFTSL)	4 years

Program description and rationale

The **Bachelor of Education (Secondary), Bachelor of Science** may be taken as a double degree program in four years full-time (or the equivalent part-time). Students who study part-time would normally be expected to complete the double degree program within eight years. The course is offered by the College of Education, Psychology and Social Work.

To qualify for the Bachelor of Education (Secondary), Bachelor of Science, a student must:

- complete 144 units with a grade of P or NGP or better in each topic, consisting of 72 units in the Bachelor of Education component and 72 units in the Bachelor of Science component, according to the program of study located on the course information page; and
- meet the required benchmark in the Literacy and Numeracy Test for Initial Teacher Education Students (LANTITE) prior to commencing the professional experience topics. Students must normally meet the benchmark within two attempts. Further attempts may be recommended by the Dean (Education) under exceptional circumstances.

Professional Experience Placement

Over the four years of the combined degree students are required to complete a minimum of 80 days of professional experience in secondary school sites.

Placement days are completed as follows:

Second Year: 15 days

Third Year: 25 days

Fourth Year: 40 days

Some pre-service teachers may complete their third-year placement in an international setting but specific pre-requisites and selection criteria apply. Some pre-service teachers undertake extended placements of ten weeks and internships for their final year placement. Selection criteria apply.

Students should note that Professional Experience topics require full-time commitment for their duration.
