

Accreditation summary template

National summary statement about the accreditation process

The accreditation process involves a rigorous assessment of an initial teacher education (ITE) program against a set of nationally agreed standards. Accreditation standards and procedures are designed to ensure that all graduates of ITE meet the Australian Professional Standards for Teachers at the Graduate career stage. This ensures the program is of high quality and prepares pre-service teachers for the teaching profession. The process also includes an assessment of a provider's quality assurance and continuous improvement mechanisms, as well as ensuring that the provider has a nationally endorsed teaching performance assessment which all graduates must successfully complete.

More information on the accreditation process may be found at: <https://www.aitssl.edu.au/deliver-ite-programs/standards-and-procedures>.

Program description and rationale

The **Bachelor of Teaching (Middle)** program prepares students for teaching in middle schools between the Years 7 to 10. It incorporates 80 days of supervised teaching in South Australian schools.

In our Bachelor of Teaching (Middle) with Bachelor of Business Management students will:

- build expertise in business management and an additional area in which they intend to teach
- explore education issues, curriculum and practice in relation to teaching business studies, and particularly in the middle secondary years, an area of schooling attracting increasing attention in the Australian education system
- work with inspiring teachers and researchers in the discipline area of Business Management
- gain professional experience and connections through extensive school placements.

A student will also:

- learn to effectively manage people, resources and projects
- explore business finance and commercial law
- study strategic planning and the science of decision-making
- consider client relations, ethics and the role of technology
- build real-world business management skills through industry projects and entrepreneurial challenges.
