National summary statement about the accreditation process

The accreditation process involves a rigorous assessment of an initial teacher education (ITE) program against a set of nationally agreed standards. Accreditation standards and procedures are designed to ensure that all graduates of ITE meet the Australian Professional Standards for Teachers at the Graduate career stage. This ensures the program is of high quality and prepares pre-service teachers for the teaching profession. The process also includes an assessment of a provider's quality assurance and continuous improvement mechanisms, as well as ensuring that the provider has a nationally endorsed teaching performance assessment which all graduates must successfully complete.

More information on the accreditation process may be found at: <https://www.aitssl.edu.au/deliver-ite-programs/standards-and-procedures>.
